

Tyron Clemmons

I'm 46 years old, born in Delaware and raised in New Castle. I'm a business owner of CFC Construction and a Vice President of my Civic Association.

My childhood was a Roller Coaster. I was on probation from 6th grade until my mid-twenties. Drugs affected my family from drug use to selling them. My path turned when I was embraced by my community center. Since then I made it a mission to help those that were affected as I was.

Even though I was blessed to never be incarcerated, probation and charges have been a hindrance in my life till this day. Everyone deserves a second chance and not be judged their entire life for actions they've paid the price to society for.

"Be not afraid of growing slowly; be afraid only of standing still"
